## Mayacamas

Aging for Mayacamas wines takes place almost exclusively in neutral oak, ensuring the style of the finished wine remains fresh, vibrant and pure. A significant portion of the ageing vessels are large format foudrés, some of which have been in continuous use in the Mayacamas cellar since the 1920’s. This commitment to large cask ageing is central to the unique style of Mayacamas wine

## Cain Five

The planting of the Cain Mountain Vineyard began shortly after the Cains purchased the property. This initial phase continued through 1988, followed by replanting from 1996 through 2006 onto phylloxera-resistant rootstocks. Replanting has begun again after the 2020 Glass Fire burned directly through the bowl of the Cain Vineyard, taking most of the vines and all of the buildings.

Screaming Eagle is hands down, the biggest “Cult” Winery in the United States, and has gotten global recognition. No one knows for sure how much wine Screaming Eagle makes. It is thought to be about 500-850 cases annually, along with a second wine, and one barrel of Sauvignon Blanc. Currently, if you can afford the wine, the waiting list to be a member is upwards of 15 years.

# BOUTIQUE IS BETTER

*Stock syndications aren't the only offerings that are allocated. Wines that are in high demand and low production create supply and demand problems where there is not enough product to satisfy the market. Because of our buying power and ability to showcase wine in NYC, wineries come to us first. Below you'll find limited availability wines with none producing more than 550 cases. The efforts of these craft & boutique wineries are putting pressure on their larger counterparts to put out the best product possible.... Move over Silver Oak & Caymus, there's a new show in town.*

# PINOT NOIR

The new world/old world distinction in wine is the continental divide, which has both geographical and stylistic implications. In geographic terms, old world refers to the more tradition-laden wine-producing countries in Europe, whereas new world means the relatively new regions around the globe. To demonstrate this divide, we have chosen the Pinot Noir grape which we believe best exemplifies this comparison.

# RHONE VALLEY

## North

*The Northern Rhone valley stretching from Vienne to Montelimar is home to the most majestic expressions of Syrah in the world. The steep mountain precipices of Cote Rotie give way to the rolling hills of St. Joseph followed by Cornas with it’s dark, brooding wines. Across the Rhone the land rises up the hill of Hermitage, whose wines have been coveted by kings for centuries.*

Essencia is the richest and rarest of all Hungarian Tokaji wines. It is the truest expression of terroir known to man. Typically, this free run juice takes 6 to 8 years to complete its fermentation to less than 3% alcohol. Essencia can reach 85% residual sugar. Essencia wine is legendary. Essencia 2008 is presented in numbered bottles in a brass hinged wooden box complete with a traditional crystal spoon. ‘Drink now through the year 3000’ - R.Parker
